*Yardage for 1 kit shown in chart at left.

This quilt consists of 2 different 12" blocks.

Continually refer to diagram and photo.

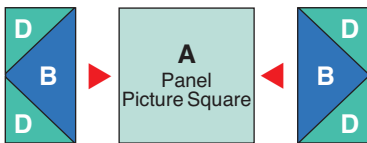

Block 1: These 5 blocks are all the same EXCEPT corner squares.

Block 2: Make 4 blocks, 2 with *Cool Blue* Snowflakes background **C** and 2 with *Winter Green* background **E**.

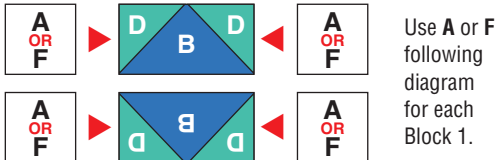

1) **Blocks 1:** Begin by making 20 Flying Geese units using **B** rectangles and **D** squares.

2) Add one Flying Geese unit to each side of 5 Winterscape picture squares **A**.

Following diagram for each **Block 1**, add corner squares, **A** or **F**, to 2 Flying Geese units.

Sew to top and bottom of picture squares from Step 2. Repeat for 4 more Blocks, WATCH corners.

3) **Blocks 2:** Following directions in Step 2, make 8 Flying Geese units with *Cool Blue* Snowflakes **C**. Make 8 Flying Geese units with *Winter Green* Snowflakes **E**. Then add to sides of 4 Winterscape picture squares **A** as you did in Step 2.

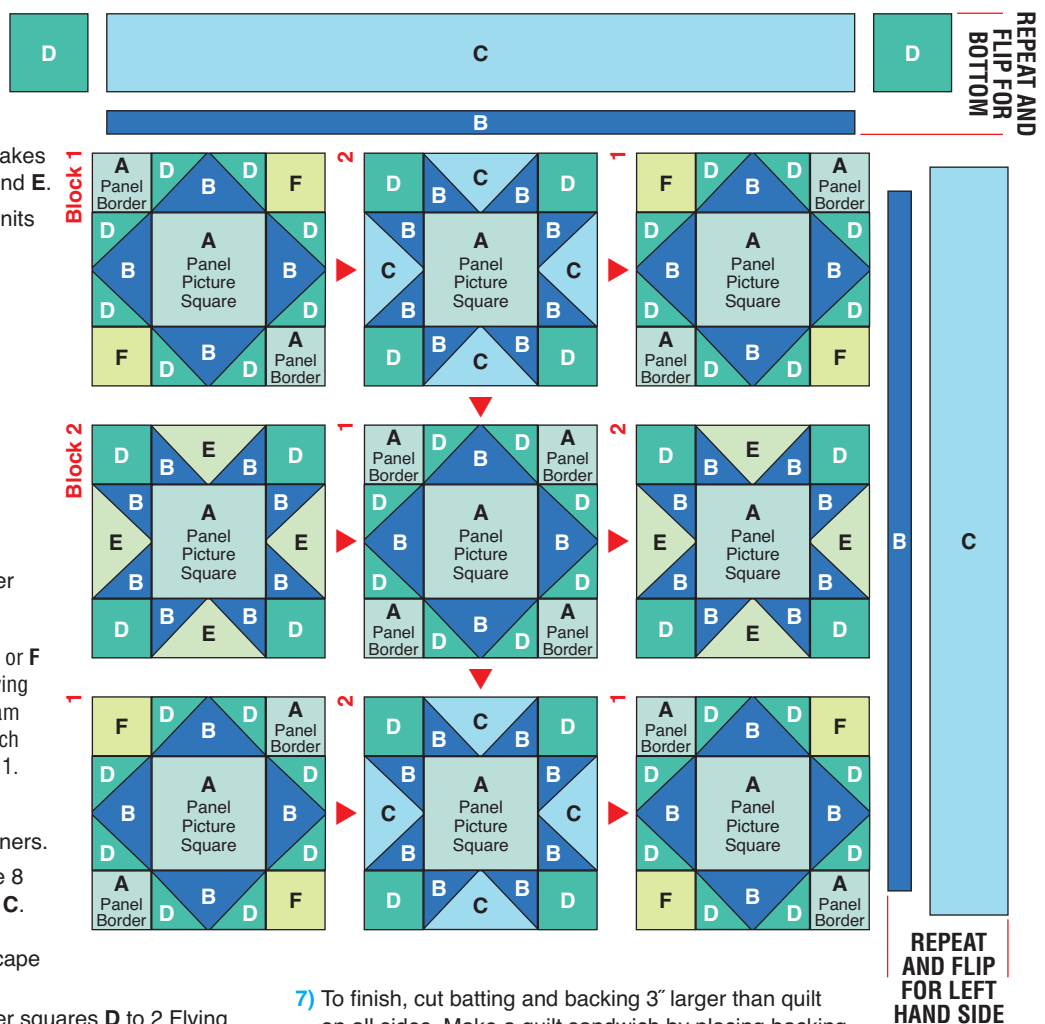

Following diagram for each **Block 2**, add corner squares **D** to 2 Flying Geese units.

Sew each to top and bottom of picture square assembly. Repeat for 3 more Blocks.

4) Assemble Blocks in rows of 3, alternating Block 1 and Block 2.
NOTE: Center Block—all corners are **A** (Panel Border.)

5) Add spacer strip **B** to each side of quilt top, trim to fit. Then add top and bottom spacer strips **B**, trim to fit.

6) Add border strips **C** to each side of quilt top, trim to fit. Measure width of quilt and add 1/2" for seam allowance. This should be approximately 38-1/2". Add corner squares **D** to each end of remaining border strips **C**. Sew to top and bottom of quilt top.

7) To finish, cut batting and backing 3" larger than quilt on all sides. Make a quilt sandwich by placing backing, batting and top together in layers. Baste or pin with safety pins. Machine quilt as desired. Trim excess batting and backing. Bind in usual manner.
